

TM5 High-Tip Vacuum Collector

It's fast. It's effective. It has a mighty powerful attraction for leaves, litter, grass clippings and other surface debris. The new updated TM5 High-Tip Vacuum Collector offers:

- More suction, boosting performance by 20 per cent
- Higher quality steels for 6x greater resistance to wear
- A wider collection head, up from 1.5m to 1.7m (5ft 7in)
- Increased hopper tip angle for fast, complete emptying
- Rapid hand valve change-over from standard suction head to optional side hose
- A wider wheel base for enhanced stability on slopes
- Improved side hose storage for faster, easier handling
- Removable mesh filter minimising discharge of fine debris
- Boosted hopper lift/lower cycles for a quicker turn-around

Grounds Care Machinery

TM5 High-Tip Vacuum Collector

Turfmech's TM5 is built for fast, effective clearance of leaves, litter, grass and other surface debris from parks, sports grounds, amenity areas and golf courses. It features powerful 1.7m vacuum/brush collection and high-tip emptying. Options include a 2.5m collection head, a turf scarifying head and a 6m flexible side wander hose for gathering debris from awkward areas.

Product Specification

Hopper volume:	5 cu metres (5,000 litres/6.55 cu yds/177 cu ft)
Load capacity:	1,000kg (2,600kg gross weight)
Suction head:	1.7m (5ft 7in) wide with full vertical and sideways float Head incorporates full-width hydraulically-powered polyester filament brush Working height quickly adjustable on two wheels (single pin)
Discharge height:	2.35m (7ft 9in)
Overall height:	2.42m (8ft) with hopper parked 5.55m (18ft 3in) with hopper fully tipped
Overall length:	4.7m (15ft 5in) (incl. drawbar)
Overall width:	1.9m (6ft 3in)
Tractor requirements:	From 35hp with clevis drawbar, 540rpm PTO, external oil flow of 25 litres/min (5.5gpm), two double-acting and one single-acting spool valve
Tyres:	Low ground pressure flotation 31 x 13.5 - 15 tubeless four ply NHS Other tyre options available on request

Optional equipment:	Flexible wander hose with guide nozzle and operator harness. Hose measures 6m long x 200mm or 250mm diameter (20ft x 8in or 10in) 2.5m rotary brush suction head in place of standard 1.7m head 1.7m interchangeable turf scarifying head Powered gully brush
