

TORNADO MARK 3 Debris Blowers

Tractor-mounted debris blowers available in 3 versions to suit tractors from 18hp to 90hp. Hitch a new Tornado blower to your tractor and reap the benefits of:

- More efficient air intake and impeller design generating up to 30% greater airflow
- Wider air delivery pattern enabling faster driving speeds and higher workrates
- Lower noise levels for extended operations close to hotels and residential areas
- A more robust blast intensifier to better dislodge and shift wet and stubborn material
- An improved rear anti-scalp roller supported by greasable self-aligning bearings
- Wider pneumatic turf tyres fitted to twin height-adjustable castor wheels
- Typical debris moved includes leaves, cut grass, scarified material, hollow cores, litter and light storm damage

Grounds Care Machinery

TORNADO MARK 3 Debris Blowers

Tractor-Mounted Debris Blowers for fast, effective clearance of most light, loose surface debris.

Product Specification

	TM300	TM360	TM360XL
Tractor power requirement	13 – 26kW (18 – 35hp)	26 – 66kW (35hp – 90hp)	29 – 66kW (40hp – 90hp)
Tractor attachment	Category 1 or 2 three-point linkage method		
Impeller drive system	Tractor PTO (540rpm) and V-belts		
Air delivery direction	Left-hand side, with adjustable blast intensifier		
Working height	Vertical adjustment from 25mm – 127mm (1in – 5in) above ground level		
Height adjustment	Twin castor wheels with 13 x 6.50 - 6 pneumatic ribbed tyres		
Surface/blower protection	Twin skids, twin front wheels and rear anti-scalp roller		
Maximum air speed	210km/h (130mph)		
Construction	All-steel housing with fabricated straight paddle impeller		
Weight	198kg (436lb)	285kg (628lb)	330kg (728lb)
Optional items	180 degree diverter to give air delivery to the right
